EDUCATION

Bachelor of Art, Sociology   2013 - 2019

California State University of Los Angeles, Los Angeles

I obtain a degree in Sociology from California State University of Los Angeles in 2019. The main benefit of learning sociology is that I will glean a great understanding of the complex and often confusing nature of man as an individual and as a collective. The results from studies into the societal behavior of people will enable me better to build and design my work in web-development.
